## THE PROMISE OF A BRIGHTER TOMORROW

### OUT OF ADVERSITY, COMES OPPORTUNITY!

Having navigated the early stages of the recovery from the La Soufrière volcanic eruption, while simultaneously managing the impact of the COVID-19 pandemic, the Vincentian communities at home and abroad are now stronger and more united in the quest to propel Saint Vincent and the Grenadines forward - towards sustainable growth. At the forefront of this trajectory, is an energetic and vibrant cohort of Youthful Visionaries who have embraced the challenge.

This is a great responsibility thrust upon the shoulders of our young people, and many of them across our multi-island nation have enthusiastically embraced this challenge. They have approached this very critical task of continuing to rebuild our nation with energy and passion.

The 12 Visionaries selected for this ninth edition of the NextGen calendar represent a broad cross-section of industries, and showcase the diversity and creativity of our people, particularly our youth. In their individual specialties, they continue to prove that the pressure of adversity serves to strengthen their resolve and determination to achieve their personal and professional goals.

At BOSVG, we take the time to pause and appreciate these Visionaries for their positive energy, bravery and commitment to purpose. Despite their varying backgrounds, our selected Visionaries share a common purpose in the pursuit of excellence. Their inspiring stories fill us with optimism and hope for the future, and no doubt, motivate others to fulfil their passions and dreams through enterprise. We are delighted to present our NextGen 2023 Candidates as we celebrate the achievements of young Vincentians.

To our Visionaries, we thank you for allowing us to share your stories, and we trust that through our various platforms, you will continue to inspire others, while making important connections for your enterprises.

Sending you all the very best of wishes for 2023 and beyond, from our team at Bank of SVG!
